Stained Glass Rescue!
'Treasures of the Stained Glass Repository' with Phil Thomas
Webinar: THURSDAY 6 August, 18:00 UK Time.

You are invited to join us for a virtual discussion with Phil Thomas, educationalist, broadcaster and historian.

Learn more about the ultimate in recycling architectural glass artworks. Phil will bring hidden treasures to life with intriguing stories behind the rescue of some of the important pieces held by the Stained Glass Repository; including tales about the artists who created these works, such as Edward Burne-Jones and Christopher Whall. Glass rescued by the Stained Glass Repository has been conserved and repurposed in buildings in the UK and world-wide. Phil will also look at some carefully chosen pieces from the point of view of art, craftsmanship and social history.

There will, as ever with Glaziers' events, be an opportunity for attendees to engage with the speaker and ask questions.

Register on Eventbrite here: <https://bit.ly/SGMTreasures2020>

Confirmed attendees will subsequently receive *a link to access the webinar session* when they have registered via Eventbrite, at least 48 hours prior the event, with another reminder on the day.
